ABOUT US

Ascot has been delivering integrated “Site Solutions” to customers across the African continent for four decades.

Initially a specialist supplier of hostel products within mass accommodation environments, our company later grew its influence into prisons, hospitals, defence force, industrial catering and remote site accommodation all over Africa.

As our reputation as a reliable supplier grew within our chosen markets we increased our product range and we are now able to offer a comprehensive range of products to customers.

We pride ourselves on understanding the needs of our customer, and responding effectively to those needs.

Through a combination of years of ‘hands on’ expertise, a wide range of competitively priced products, logistical support and a suitably qualified team of technicians, we are able to offer a superior, high quality service with standard setting efficiency that is unmatched within the market.

Our Green Initiative

Our future energy supply is not expected to be sufficient to match the anticipated demand and there is increased pressure on costs, we must all focus on green initiatives. We at Ascot are committed to energy saving as a key component of supplying the correct “Site Solutions” and to jointly explore energy saving initiatives with our customers as we all become increasingly environmentally aware.
